

Pinnacle Horse

Training ▪ ▪ Showing ▪ ▪ Fun

Why use our Services?

Rider:

- **Do you wish you could see yourself ride?**
As we all know, seeing yourself ride can dramatically help you improve your position. The Video Analysis you'll receive will accurately evaluate your riding and offer suggestions for improvement.
- **You just don't have the budget to attend expensive clinics?**
Many clinics can cost \$250 - \$400 for a weekend. Our services are less than half the cost of regular clinics and extremely well priced.
- **Time is a factor, it is hard to be gone two or three days for a clinic?**
We are all so busy nowadays, especially if you have children! Our services are usually conducted over one day or during a riding lesson to save time.
- **Have you ever wondered if you're ready to move up a level?**
When sending in your video for evaluation, you have a spot to add information about the level of rider and horse. Simply ask the clinician to evaluate your video and determine if you should move up a level.
- **You're a working student and wish you could easily continue to work with your coach after you leave?**
Simply attend a Video Clinic or send in a Video Evaluation and you'll be able to get the same great, quality coaching.
- **Do you need help with a specific riding exercise?**
On the video submission form, ask the clinician to focus on your problem exercise. The clinician will suggest exercises to improve and will focus on that specific exercise.
- **Have you ever wondered why you placed as you did at a horse show?**
Our clinicians can judge your test or show performance and offer their critique which can be compared to your show score.

Trainer:

- **Do you want your students to see how their position affects their performance?**
Our Video Analysis services, which include slow motion and frame by frame, will truly help your students improve their equitation.
- **Would you like to improve your teaching methods, but need an affordable way to learn from the best clinicians?**
Our clinicians are the best of the best for their level! Review your students Video Analysis and learn how the best clinicians teach and explain different riding exercises. Compare your teaching methods with other clinicians.
- **Do you want an affordable evaluation activity that your local horse club can do?**
Any of our services would be a great activity for a local pony club or 4H club. Clubs could also host a Video Clinic for a local fundraiser.
- **Do you wish you could manage the supplemental training of your students?**
Video Clinics and Video Evaluations provide an excellent, affordable way to do this!
- **A student doesn't understand an exercise. You want an easy way to have the exercise explained in a different way that the student may understand?**
Sometimes, it can help to have an exercise explained in a different way. Simply, send in a Video Evaluation and ask the clinician to focus on the exercise.
